

OUR SPENDING BREAKDOWN

Spending So Far: \$768.77
Since: September 2025

How Do We Categorize Spending?

Programs: Any expenses directly related to our programs, their operation, and their maintenance. This includes any supplies procured for these programs, or any other items that we need to ensure that our programs run smoothly. For example, our food bins that we purchase to collect food donations for our Feed America program are included here.

Administrative: Any expenses directly related to our internal operations, which includes our website (the biggest financial draw by far), email services, printing materials (Supporter Forms, Membership Cards, etc.), and our mailbox, among others. We include salaries in a separate category “Salaries” to maximize our transparency. We do not pay salaries to any individual, so this is not applicable at the moment.

Advertising: Any expenses related to promoting our organization, our cause, our mission, and increasing our outreach. This includes any printing supplies (flyers for events, lamination, etc.). We do not currently run any form of paid advertising, although this would be included if applicable.
